

TABLE & OIL OLIVES

ANTI-STRESS 550® is a non-toxic, biodegradable, water-based polymer concentrate. Applied as a foliar spray, Anti-Stress 550® creates a unique semi-permeable, elastic membrane that reduces moisture loss and insulates plants.

Benefits of **ANTI-STRESS 550®** on Olive Trees

- Improves tolerance to frost and freeze by 4° - 6°F.
- By retaining moisture within the plant cells and by providing a physical barrier between sensitive plant tissue and ice crystal formations, Anti-Stress 550 reduces frost and freeze damage.
- Typical application is effective for 30-45 days.

Application of **ANTI-STRESS 550®**

Post-Harvest Application (November – December):

- Apply by tank mixing with Kocide® (copper) or after copper application
- Recommended Anti-Stress 550 application rate of 2.5%

Winter/Spring Application (January - April):

- Re-apply as needed prior to frost/freeze events. Anti-Stress 550 may be re-applied at any time following the first application for maximum effectiveness against frost and freeze.
- Recommended Anti-Stress 550 application rate of 2.5%

Available in 2.5 gallon containers, 30 & 55 gallon drums, and 250 & 275 gallon totes.

Pesticide use permit not required / Applicators License not required
Anti-Stress 550® is exempt from reporting by California requirements

Not a Pesticide
