

# AVOCADOS

**ANTI-STRESS 550<sup>®</sup>** is a non-toxic, biodegradable, water-based polymer coating which creates an elastic semi-permeable membrane that reduces moisture loss in plants.

Benefits of applying **ANTI-STRESS 550<sup>®</sup>** to Avocados:

- Does not block sunlight or reduce photosynthesis and allows normal stomatic activity.
- Reduce plant moisture loss and desiccation during summer heat and drying winds.
- Reduce tree stress between irrigation cycles.
- Improves tolerance to frost and freeze by 4° - 6°.
- Allows for unrestricted plant growth permitting leaf and plant flexibility.

Application of **ANTI-STRESS 550<sup>®</sup>**:

- One to two gallons of Anti-Stress 550<sup>®</sup> should be applied per 100 gallons of water.
- Summer application: 1<sup>st</sup> application in late May; 2<sup>nd</sup> application in mid-July.
- Winter application: Prior to on-set of potentially damaging temperatures.
- Anti-Stress 550<sup>®</sup> may be applied with most types of conventional farm, orchard or ground spray equipment.
- Sufficient spray pressure/volume must be used to dispense Anti-Stress 550<sup>®</sup> over and throughout the entire tree surface.
- Thorough coverage is critical.
- Application is effective for 30 – 60 days.

Available in 2.5 gallon containers, 30 & 55 gallon drums, and 275 gallon totes.

Pesticide use permit not required / Applicators License not required  
Anti-Stress 550 is exempt from reporting by California requirements  
Not a Pesticide
